

NON-PRESCRIPTION EYE PROTECTION **ACTIVA SPECTACLES**

DESCRIPTION AND COMPOSITION

Ergonomic design with nylon frame and polycarbonate lenses.

Temple arms with length adjustable to 4 positions and angle adjustable to 5 different positions: perfect and original adaptation.

Non-slip rubber nasal bridge to minimize impacts or head-on crashes. -

The weight is very light to reduce discomfort and to allow uninterrupted use during all the working hours.

These materials are not known to cause any damage to skin.

Compatible with other PPE.

All polycarbonate lenses come with anti-scratching treatment.

TECHNICAL DATA

		FRAME	LENS
906955	Activa Blue and Orange with anti-fogging	CE MEDOP 166 F	CE MEDOP 1 F N
911263	Blue and orange Activa with anti-fogging and anti-reflection treatment		
910492	Activa Grey and Red with anti-fogging		

- 1: Optical Class 1.
- F: Protection against high speed, low energy impacts.
- N: Symbol for resistance to fogging.

APPLICATIONS

Protection against high speed, low energy impacts.

Certified against fogging (anti-mist).

Recommended: Warm working environments or when the user is exposed to different temperatures.

Sectors: Mining, Farming, Car industry, Textile, Timber...

Anti-reflective: reduces visual fatigue, itching, eye redness, stinging. It cuts down on night driving glare.

Only the most advanced lenses on the market have this feature incorporated.

The anti-reflective glasses are clearer thus enabling users to see better.

NON-PRESCRIPTION EYE PROTECTION **ACTIVA SPECTACLES**

MAINTENANCE /STORAGE/ CARE

For an adequate maintenance of your glasses keep them in a clean and dry place, inside an appropriate case.

INSTRUCTIONS/ USE / USAGE METHOD

How to clean polycarbonate: Use tepid water and neutral soap, without abrasives or disolvents. Clean with water and dry with a soft cloth. We also recommend MEDOP ANTI-FOG CLEANING SPRAY.

Protectors must be checked periodically and replaced if they are damaged.

Make sure these protectors correspond with the risk to prevent at work.
